

# 41504026

# Manually operated transfer switch body SIRCOVER UL1008 4P 260A

#### Strong points

- Stable positions
- Compact design
- On-load switching
- Reliability

### General characteristics

Three stable positions, not affected by voltage drops or vibrations.

Back to back switching design offering an extremely compact solution.

Make and break under load conditions to provide safety of person and equipment.

#### Compliance with standards

UL 1008, Guide WPYV File E317092 UL 98, Guide WHTY File E201138 CSA 22.2#4, Class 4651-02, File 112964

## Link to the reference

SIRCOVER are heavy-duty manual transfer switches. They ensure switching transfer of sources or transfer of two low voltage circuits on load as well as their safe disconnection.

These extremely durable switches are tested and approved for use in the most demanding applications, such as resistive load or total system applications.
