

## 97234040

# Remotely operated transfer switch ATyS UL1008 4P 400A

#### Strong points

- Robust and Reliable design
- Maintenance-free
- Compatible with virtually any TSE controls

### General characteristics

Tested in full compliance with UL 1008
Three stable positions, not affected by
voltage drops or vibrations
Back to back switching design offering
an extremely compact solution
Make and break under load conditions
Robust and reliable design with motor
factory assembled on the transfer switch
Compatible with virtually any TSE
controller

## Compliance with standards

UL 1008, Guide WPYV File 317092; IEC 60947-6-1

ATyS non-automatic transfer switches are designed for use in total system optional standby applications for the safe transfer between a normal and an alternate power source.

The changeover is done in open transition and with minimum supply interruption during transfer ensuring full compliance with UL 1008. The ATyS is a full on-load disconnector where the main components are based on proven technology, also meeting requirements in UL 98 standard.
